

Expansion of Consciousness, Shamanism and Healing

Psychoactive Substances in Psychotherapy

Sixth International Congress of True Psychotherapy, Psychoalytic Therapy and Alternative Psychiatry

June 23rd – 25th 2023, Lüsslingen-Nennigkofen, Switzerland

Psychoactive Substances in Psychotherapy

Working with psychoactive substances is a powerful therapeutic tool.

Moreover, it is an instrument for deconditioning the mind, and it serves as a ritual for community building, self-awareness and self-knowledge, expansion and exploration of the consciousness and reality, and also the search for deep mystical experiences.

Out of a deeper understanding of oneself and the word comes healing.

Avanti

International Association for Physicians for True
Psychotherapy and Alternative Psychiatry
in cooperation with the

World Wide Magic Movement

Avanti, Grossmatt 296, 4574 Lüsslingen, Switzerland
